Key advantages of Disability 1000

■ An optional Health Screening Rider is available.

Employees have the option to purchase the Health Screening Rider at an additional cost, which pays a \$50 benefit once per calendar year if the insured has a covered screening test performed.

■ Rates won't increase because the employee ages.

Our rates are determined by issue age. Insureds' rates will not increase over time just because they get older, unlike plans with step-rated rates that increase as insureds age.

■ Employees choose a flat monthly benefit amount that fits their lifestyles and budgets.

Our plan gives employees flexibility to choose a flat dollar amount in \$100 increments (up to 60% of their annual income, subject to underwriting), unlike plans where employees must purchase a percent of salary. This feature allows employees to choose more or less coverage than they could if they were limited to a standard percent of salary.

■ Benefits are paid regardless of any other insurance coverage.

There's no coordination of coverage with our plan, which means it pays benefits directly to the employee, regardless of any other coverage, unlike plans in which the benefit amount may be reduced by salary continuance, workers' compensation or government disability benefits. Employees can have greater peace of mind knowing they'll receive a monthly benefit from this plan.

■ There's no limit to the number of times an insured can receive the Waiver of Premium benefit.

Our company will waive the premiums for both the policy and any attached riders after 90 consecutive days of covered disability or after the elimination period (whichever is longer). There is no limit to the number of times an insured can receive the benefit.

Product has exclusions and limitations that may affect benefits payable. Benefits vary by state and may not be available in all states. See your Colonial Life benefits representative for complete details.
