

The Hartford @ease BillingSM

Make your billing process a non-event.

Changes in employee census and payroll can be unwieldy. But the burden of keeping track of them all – plus making the requisite adjustments – doesn't have to be. Introducing @ease Billing from The Hartford. It's a new service that spares you the time and burden of premium calculations.

It doesn't matter what your current billing type is.

The Hartford @ease BillingSM allows us to work with your payroll vendor or directly with you or your IT professional to set up a regular census feed – then test it and go live with the file feeds. As a result of receiving these regular feeds and employee level information, we can better assist your employees when they contact us.

Say good-bye to tracking and manually editing your monthly invoice. New hires, terminations, salary changes to your bill all become automated and fed over to us from your payroll vendor or payroll system.

Don't do the math. Leave it to us.

Instead of laboring over billing reconciliation and changes each month, customers can simply leave those tasks to us.

- Can help reduce the administrative burden for the employer – with virtually no calculators and checklists.
- No need to allocate premium for employer-paid or voluntary bills. Your current census information is simply updated based on the frequency of your file feeds sent to us.
- No need to calculate premium due or track and update your changes on EmployerView.

We look forward to providing this option to all customers with less than 1,000 employees who choose to simplify their premium responsibilities and reduce time spent on administrative tasks.

Combine with our AutoPay option for a truly hands-off experience.

AutoPay lets you set up recurring ACH payments from your checking or savings account on the day of the month you choose. We'll confirm the payment is processed by e-mail and send a final e-mail confirmation once funds are deducted from your account. Secure, convenient and easy.
