

Find A Doc

Provider Search Tool Training

Welcome!

- CareSource's Find A Doc tool allows you to search for hospitals, primary care providers, specialists, etc. that are currently participating in the network.
- This tool can be accessed by visiting, <https://findadoctor.caresource.com/>
- Today we are going to walk through a number of ways you can filter, sort and search for in-network medical facilities and professionals on Find A Doc.

Find a Doctor:

<https://findadoctor.caresource.com>

Sort it Out

Use this feature to sort results by a variety of options from provider name, distance and relevancy.

Rearrange Results

Click this switch to rearrange your search results from Ascending to Descending order. For example, this allows for you to sort “distance” from closest to farthest (ascending) or farthest to closest (descending).

CareSource Find-A-Doctor Tips

findadoctor.caresource.com

Tip: Find-A-Doctor will use your current location. Use your client's address to find providers close to their home.

Tip: When in doubt, reset filters! Resetting Filters before every search to avoid carrying restrictions forward from your previous search .

Tip: Help and Tutorial are excellent resources for quick questions, definitions, and search tips.

More tips

- You can print a results list for your reference as well as print to PDF to save that list.
- Remember that Find A Doc is updated on a regular basis. As doctors, hospitals, clinics, etc. are added to our network or close their panels, those updates are reflected in our tool. Always ensure that the information you are referencing is the most current in the event that you print or save a Find A Doc result list.

Any questions?

- Please reach out to us as you encounter any questions, errors or issues on the tool.
- Remember that screenshots, pictures and real life examples are the best way for us to be able to research, review and correct any information.
